All the information about our producers

**What to see and what to do**

Plan your trip

**VisitReguengos**

The lands of Reguengos de Monsaraz are rich in reasons to visit and to contemplate.

From the landscapes, once of a typical Alentejo, now enriched with the extension of water from Alqueva, to the monumentality of Monsaraz, "sentinel of the Guadiana, guarding the border with Castile" through the vast archaeological field of these lands, populated with traces with chronologies from Prehistory to the Contemporary Age.

These same lands of Reguengos de Monsaraz are equally rich in vineyards that stretch as far as the eye can see and that, as in Torga's poem, we gaze in awe at their immensity, a naked body, in fire or chilled that has the face of serenity.

It is here, in this mix of history, calm and serenity, in an enviable terroir, where is born the wine that has given the name to the county, overflowing beyond the sea to reach all corners of the world.

Wine Tourism allows the visitor to know the symbiosis of the world of history, visits and contemplation, with the experience of tasting wine together with the explanations of the details of its production, made by those who know how to do it. It gives the visitor the experience of breathing the atmosphere of the cellars, of the barrels, of feeling the wine closer, in its development process.

The wine-growing region of Reguengos de Monsaraz includes 11 wineries, 10 of which offer wine tourism activities to their visitors.

The document we present here has a double purpose. It is an invitation to visit the different wine tourism sites in Reguengos de Monsaraz and to benefit from the various experiences that they provide. It is, simultaneously, an informative guide to the many options available to the visitor on his trip to our lands, which we are grateful for and wish to be an unforgettable experience.
